Our Proposition

EDI Approach is located off Old Liston Road, South West of Newbridge, Edinburgh, EH28 8SJ, and is a sustainable, aptly placed development serving the capital and country in the distribution and logistics sectors.

The well-known site sits within easy reach of Edinburgh Airport and is connected nationally via road networks with easy access to the M8, M9, M90 and the Edinburgh City Bypass from the location.

The Masterplan

Application for planning permission in principle for the erection of a logistics, business and industrial development, related uses including EV charging hub (Use Classes 4, 5, 6 and Sui Generis), together with ancillary development, associated access, infrastructure, landscaping and to improve local amenities.

The site comprises 24.9 hectares / 61.5 acres, which is envisaged will be able to accommodate units ranging from 4,000 sq ft to 300,000 sq ft.

Furthermore design and build opportunities and plot-by-plot sales will also be considered.

Plot 1	122,650 sq ft	Plot 5	50,000 sq ft
Plot 2A	75,000 sq ft	Plot 6	60,000 sq ft
Plot 2B	75,000 sq ft	Plot 7	56,000 sq ft
Plot 3	60,000 sq ft	Plot 8	100,000 sq ft
Plot 4	120,000 sq ft		

100% rates relief for the first 12 months.

Your Location

The location of EDI Approach is situated perfectly on the outskirts of Scotland's Capital, Edinburgh.

EDI Approach's situation means that connectivity to Scotland's largest ports, airports & main roads is its strongest asset and one that allows for exceptional logistical reach and potential. Driving routes to Forth Ports, Edinburgh Airport, the M8 & M9 are all within a half-hour drive, though in some instances as little as 10 minutes. Please enjoy the map that follows to have a clearer view of this.

Neighbouring businesses include the likes of DHL, DPD, Tesla & The Luxury Car Village making any business feel at home in this bustling location.

Edinburgh continues to be one of the world's most livable cities, ranking 15th happiest globally in 2024 with 'golden status' for mobility, environment, and quality of life. EDI Approach has a wide array of public transportation links via, trams, buses and green cycle routes allowing for swift workforce access.

Market Snapshot

Scotland traded (imports and exports) over £64.9 billion worth of goods in 2023, 54% of which were exports. Of the £35.1 billion in international goods exports, £19.1 billion (54%) were destined for countries within the EU, highlighting strong trade links across Europe. The top five international destinations for Scottish goods exports in 2023 were the United States, Netherlands, Germany, France, and China.

Forth Green Freeport

EDI sits within the Forth Green Freeport catchment area. Freeports are areas within the UK's borders where different economic regulations apply. The establishment of Freeports will encourage/promote regeneration through the creation of highly skilled jobs within the port areas along with ensuring sustainable economic growth and regeneration of the communities that need it most.

Local economies will benefit from growth as tax measures look to drive private investment with planning reforms facilitating the construction and improvement of local infrastructure.

The Scottish and UK governments propose measures to incentivise eligible businesses within the Freeport areas such as:

- Land and Building Transaction Tax Relief
- Enhanced Structures and Buildings Allowance
- Enhanced Capital Allowances
- Employer National Insurance Contributions
- Rate Relief and Non-Domestic Rates Relief
